Carestream

TECHNICAL TRAINING FOR NON-CARESTREAM HEALTH STUDENTS ON CARESTREAM MEDICAL IMAGING SYSTEMS

CUSTOMER DRYVIEW 5950 LASER IMAGING SYSTEM TRAINING-ELEARNING   COURSE CODE: P248   CAT NUMBER: 1020270

Target Group	Duration (days)	Participant number / session
Partners and Distributors	20 hours?	Unlimited

To enroll, please contact:

Carestream Health Technology and Innovation Center US&C Medical Imaging Training Center 1049 Ridge Road West Rochester NY, 14615 Tel: (+1) 800-810 –0327 Option 3 Fax: (1+) 800-445-9967 http://www.carestream.com/training-us.html	

Objective & Learning Outcome

Upon successful completion of this course the student will be able to:

- Describe DryView Technology
- Recognize key components of DryView Laser Imagers
- Describe the Product Characteristics of the DryView 5950 Laser Imager
- Identify the tools needed to prepare for the Installation of the DryView 5950 Laser Imager
- Describe the Steps necessary to unpack the DryView 5950
- Describe the steps required to energize the DryView 5950
- Describe the process for using the Installation Wizard to configure the DryView 5950
- Describe the process for enabling Modalities to print optimal images on the DryView 5950
- Describe the Steps required to back-up the DryView 5950 configuration
- Describe the Final Steps in the Installation Process of the DryView 5950
- Identify steps needed to maintain the DryView 5950
- Describe how to assess the condition of the DryView 5950
- Describe how to Troubleshoot all major assemblies of the DryView 5950
- Describe the steps needed to diagnose the cause of an issue:
- Determine what action to take to repair each major assembly:
- Describe how to check in with the customer:
- List the two situations under which the 5950 will print a calibration sheet.
- Operate the system and produce a readable image with no gross errors.

APPENDIX

Training program Content
Training is presented online. Participant knowledge will be assessed with online Quizzes and Tests.

Introduction to the DryView - DryView Technology Overview - DryView Film and AIQC - Key Components of DryView Laser Imagers
Installation and Configuration - Tools needed for Installation - Unpacking the DryView 5950 - Energizing the DryView 5950 - The Installation Wizard - Backing up the configuration
Maintenance and Troubleshooting - Standard operation of the DryView 5950 - Maintaining the DryView 5950 - Assessing and diagnosing problems on the DryView 5950 - Replacing Components in the DryView 5950
Mammography - Overview of digital mammography applications, regulations, and requirements

Prerequisites
Before taking this online course, the participant should have the following prerequisites:

Must have
 	
• A background in basic electronics and mechanical equipment
   · The ability to use a Multimeter safely
• The ability to navigate the Windows Operating System
   · How to create a Shortcut
   · How to install software
• A working knowledge of Computer Networking Concepts and Operations
   · Must know **how** to change the Laptop IP Address
• Must know **when** an IP address change is necessary

Will benefit from • Previous experience with DryView Technology

Other information
Training will be provided through the online Training System eCampus.
